President's Message

Dear Guild Members:

First, I would like to welcome all our new members! Our membership list hasn't really increased much from last year, but the number of members that are attending our meetings has increased immensely! It's exciting for me to see everyone getting to know one another and all of us being excited for one reason or another. I was especially excited when I asked for volunteers for our quilt show and saw some of you running up to make sure someone didn't get there before you. It almost brought tears to my eyes, and to think that I thought I would have to approach some of you ladies to fill some of the openings during our pot luck! What was I thinking! Thank you all for signing up!! We have some great times ahead of us, planning for our next quilt show.

It looks like our first sewing retreat was a huge success and we already have volunteers to do our next one in March of 2015! I'll be taking the group picture back to Michigan with me so that I won't miss all my new and old friends! It's hard to believe that it's already been a month since our retreat and we're all talking about the next one, and how many will be attending. I hope we have so many gals (and guy) that we won't know where to put us all! I'm already planning what projects I might bring.

I'm trying to get a head start on packing for my trip back to Michigan for the summer. Of course, you know Murphy's Law.....If I pack something early (like all my thread for my 6 needle embroidery machine), I'll be hunting for them a week before we go for some project I just "need to finish" before leaving. Speaking of "head starts"...I have already made myself a list of things I would like to make for the "Boutique Table" for our quilt show in 2015. The list gets longer as the few things really start to add up! If I get a "head start" I might get most of them done. Some of the things on my list are things I wouldn't make for myself because I wouldn't use them, but it would be a great gift for someone else, and I really want to try making them. So many things to make and lots of time to do them (for a change).

Your new board has been in office for 15 months as I write this letter and we've seen many changes. What does the future hold for us? I can't wait to find out!

Fondly,
Karen Pilon
& Sharon Allard

February, 2014 Quilt Challenge Winners – “A Story in Quilt Patterns”

At our February, 2014 meeting the members displayed their 2014 challenge quilts –“A story in Quilt Patterns.” They were asked to make a quilt using 2 or more of the quilt block patterns set by the previous year’s winner, Shirley Kerstetter. The patterns were: Sunbonnet Sue, Crooked Path, Corn and Beans, Double nine patch, Grandmother’s Flower Garden, Log Cabin, Bear’s Paw, Indian Hatchet, Wild Goose Chase, House on the Hill, Susannah and the Seven Sisters. They were voted on by the members. The results are below:

1st Place – Emily Hamilton

Emily used several of the blocks in her quilt including Sunbonnet Sue. She shows a really cute farm scene with Sue hanging her quilts on the line. Very clever and beautiful stitching!

2nd Place – Ruthanne McGookey

Ruthanne was able to incorporate all of the block patterns in one quilted wall hanging. Great job Ruthanne. A lot of work.

3rd Place – Sharon Allard

Sharon was able to depict several of the blocks and include Sunbonnet Sue in this very clever kite design. Even the tails were flying geese! Wonderful.

Honorable Mention – Karen Pilon

Karen was very creative in her wall hanging showing Sunbonnet Sue holding a few of the other block designs. Of course, one of her favorite parts of the meetings are “Show & Tell.”

Guild Activities

JUANITA YEAGER CLASS – PAINTING ON SILK BROADCLOTH

On February 12th, 2014 Juanita Yeager taught a wonderful class at the Mining Association Enrichment Center. All of her work is created by painting the images on silk broadcloth with artist grade watercolor pigments. The images are light fast and permanent. The cloth is layered with a batting and machine quilted. All the students seemed to be having a great time learning this new technique.

At the March 27th meeting some of the members displayed their finished products from this class. Beautiful job ladies.

Note from the Editor: Due to space and trying to keep it to no more than a 3 – 4 meg document, I cannot always put all Show & Tell in each newsletter depending on other data that needs to go in. I do save them and put them in at other times, so please understand you are not being slighted. Your turn will come.

Some Show & Tell

Another group of quilts made at the retreat – “Strips and Ladders.”

Quilts made at the retreat – Trip Around The World Pattern

Quilts made at the Katie Ringo Melted Crayon Class held on March 25th.

Joyce Elliffe makes a lot of baby quilts and this cutie is just one of many. Nice job Joyce.

Joan Hartman is showing a beautiful wool applique quilt. Very nice Joan.

Jamie Crowe is showing her beautiful Red work quilt with all Red work baskets. Love it!

Lakewood Retreat

On March 3 – 6, 2014, 33 members attended our first annual Quilting Retreat at the Lakewood Retreat Center in the hills of East Hernando County. We had 3 days and nights of sewing, eating, relaxing, laughing and being with friends. Everyone had a wonderful time and can't wait until next year's retreat. Here are some pictures of the retreat.

Betty Johnson - An artist at work! "I'm going to paint my quilts and see how that works."

Barb Childress, "OK, where was I when I got interrupted to show my seat cushion one more time Ladies"!

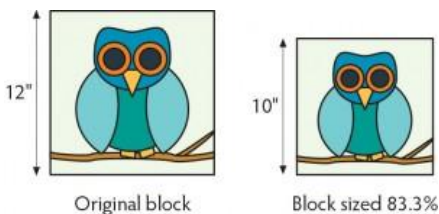

Tips / Tricks

RESIZING BLOCKS FOR APPLIQUE

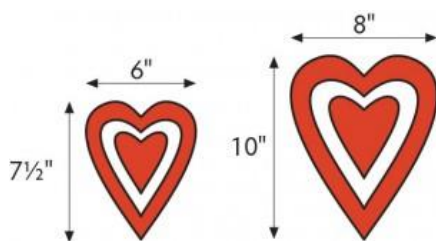

How to Resize Applique For Quilt Blocks

Imagine a darling little applique that is just perfect for your wall, but the 12" block is too large. You decide you would like to make it 10" square. You take the 12" pattern to a photocopier with the intent to make it smaller, but what percentage should you make it? In the words of my friend, **"Ya start with whatcha want, and ya divide it by whatcha got."**

Begin with your goal – it's the reason you have to deal with quilt math in the first place. What you want is a 10" block, so punch "10" into your calculator first. Hit the division key, then enter the number "ya got," which is 12. Press the "=" key. The number 0.8333333333 pops up. The copy machine wants a percentage, so move that pesky decimal point to the right by two spots, and then you're done. Because this is a quilt, not a suspension bridge, you don't need all of the decimal points, so ignore them. You need to reduce the 12" pattern by 83.3% to make a 10" block. Yes, it's that easy to figure out.

Let's work it the other way and make it a little more complex. You have an applique pattern for a 6" x 7 1/2" heart and you decide you'd like to make it a least 8" wide, but you're clueless how tall that will be. Ask yourself, what is it you want? An 8" wide block. What do you have? A 6" wide block. 8 divided by 6 = 1.3333. This is what I call the "proportion number." Move the decimal point two places to the right and you've successfully determined you need to enlarge the heart pattern 133.3%. How tall will it be? In this case you multiply the original height (7 1/2") by the proportion number, which is 1.3333. So, 7.5 x 1.3333 = 9.99975. The heart will be about 10" tall.

Continued....

One way to check that you did the math correctly is to remember the following. The proportion number will always be greater than 1.000 if you're enlarging something and will always be less than 0.999 if you want to make something smaller. Always, if you want to reduce a pattern, but you have a proportion number larger than 1.000, you likely entered the wrong number into the calculator first. Keep that in mind. Remember: **"Ya start with whatcha want."**

Love to audition your fabric choices BEFORE cutting out the entire quilt?

Test fabric choices: Finalize block design and fabric selections by mocking up a block. Cut the fabric pieces to the finished size (leave off the seam allowances for this test only; these pieces will not be used in the finished project) and sketch the grid and block design on paper. Glue the fabric pieces in position on the paper to create a mock block. Place the mock block several feet away to view the design and color combination. If desired, make additional blocks to test alternate fabric choices.

To further test the color and layout, make color photocopies of the mock block. Use the copies to begin planning the quilt top, watching for secondary patterns to emerge and checking color placement in adjacent blocks.

WEBSITES TO CONSIDER

Quilting Websites To Consider – By Barb Theriault

- www.QuiltersWarehouse.com - This website features new designers each month. They are very organized and categorize their patterns by subject and designers. They have a little of everything from fabric to patterns to Block of Months to tools. I have found some very neat patterns on this site. I've been exploring this site for about 8 years now.
- www.shabbyfabrics.com - This website is another favorite of mine. They have really cute Block of the Month patterns. Fabrics can be viewed by collections, design or color. They offer free patterns from time to time.
- www.Quiltshops.com - This website is a great source for searching for a particular fabric you might have run out of and cannot find any locally. They have a search tool that searches member shops all over the country that carry what you are looking for. I once needed an additional 2 yards of a fabric that I could no longer find and found it in a shop in Endicott, NY and it happened to be on sale also. What luck! The search is even easier if you have the code number from the selvage.
